

CP-300 Dispenser

Simple, Precise Single Product Dosing

The CP-300 Dispenser is a fully programmable single pump dispenser designed for simplicity in top load laundry applications as well as any application requiring a single product to be dosed accurately.

It utilizes Hydro's proven motor gearbox and squeeze-tube change, which is easily accomplished with no tools. A universal power supply makes it the right choice regardless of where in the world you are located.

The CP-300 offers a programmable delay of up to 30 minutes in 5 minute increments, a max run time of 20 minutes, and programmable lockout period of up to 30 minutes in 5 minute increments. Its programming remote also serves as the user interface.

Once programmed, a simple press of the button begins the dispensing cycle. The CP-300 can be programmed to allow for user priming, if desired. Its lockout is protected against power interruptions, and the lockout period resumes where it left off once power is restored.

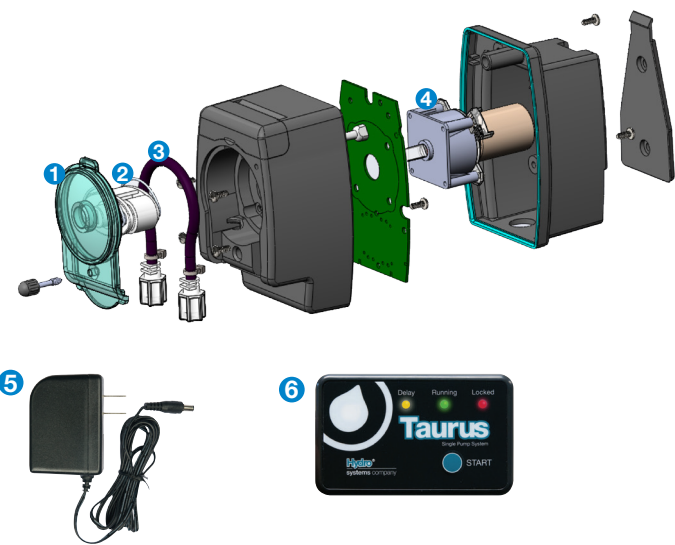

You Want It, You Got It!

The CP-300 Dispenser ships with all the parts necessary to get started (see right). For more information on ancillary products, please contact your Hydro laundry and warewash representative.

Parts Diagram

CP-300, Single Product Dispenser Part Number 00-08879-00

Reference	Model	Description
1	13-08602-06	Pump cover, teal (screw included)
2	13-06396-00	Pump spinner
3	13-06399-10	Pump tube, standard, 1/4" detergent EPDM, 10 pk.
	13-06395-10	Pump tube, 1/4" Rns, EPDM, 10 pk.
	13-06395-30	Pump tube, 1/8" Rns, EPDM, 10 pk.
4	13-08721-01	Pump motor kit (det.)
5	10096229	Wall-mounted transformer, 24VDC, 1A
6	13-08602-00	CP-300 remote (black)
